Duties

The Statutes Committee will focus on preparing the modification of the statutes of the UHSK. The main revision is to adapt the statutes to The Management and Supervision of Legal Entities Act (WBTR). In addition, the Statutes Committee may identify and prepare other modification proposals. This will keep the UHSK bylaws on track with the association.

Process of association year 2021 - 2022.

In 2021-2022, the Statutes Committee focuses primarily on the formation of the Committee and going through the statutes. While going through the statutes, modifications are inventoried and the alignment between the statutes and the WBTR is examined.

Future Process

In the coming years, the Statutes Committee will be tasked with 1) undertaking a broader inventory of modification proposals within and outside the association, 2) fully aligning the statutes with the WBTR. It is expected that the results can be presented to the General Assembly in association year 2022-2023. The Statutes Committee is free to deviate from this expectation. The Statutes Committee is also free, if necessary, to expand on its duties.
